March 23, 2003 Rod Planck Photo Seminar

[Rod Planck](#) has taken over 25 years of field experience photographing nature and condensed it into this intensive and unique 1-day seminar. The seminar's programs are presented in an order that follows the field process of nature photography. Beginning with the moment of discovering a subject that inspires you and then working step by step through the creative process with the goal of creating an image that is properly exposed, razor sharp (where and when it needs to be) and dynamically composed with strong visual integrity.

In this lecture / slide program, Rod teaches field techniques that work and points out those techniques that don't. You will discover new ways to explore and experience the natural world -- using nature photography as your medium. Most importantly, this seminar teaches you how to photograph the wonders of the natural world from an unmanipulated and non-commercial perspective. Regardless of your skill level, this seminar is a great way to take your photography a significant step further. Even though Rod works exclusively with slide film most of the techniques covered in this seminar apply to both negative and digital field photography.

Cost: \$69: 1-day seminar fee includes tuition, seminar handouts, morning coffee, a complimentary roll of Fuji Velvia slide film, and a chance to win one of many door prizes. You can register by calling (906) 492-3444, or you can register [online](#).

ARTHUR GRIFFIN CENTER FOR PHOTOGRAPHIC ART Winchester, MA www.griffincenter.org

There were many things that made the photographer Arthur Griffin special-not just that his New England landscapes graced the covers of Yankee. He pioneered the use of color film and was one of the first American photojournalists to use a 35-millimeter camera. Griffin was as much loved for his beautiful images as for his penchant for colorful hats and outfits, for throwing big birthday parties for himself, and for his ability to poke fun at anything, including his own stutter. The Arthur Griffin Center for Photographic Art is a nonprofit organization dedicated to photographic art, and Griffin's photographic archives are in the permanent collection, part of which is on display throughout the year. -- J. D. Hale Jr. 67 Shore Rd. Tues.-Sun. noon-4 p.m.; \$5, seniors \$2, students and children free, Thurs. free. 781-729-1158.
